# BOGASCOPIES

**Aries:** Don't pour the Bisquick if you aren't ready to make the pancakes.

3-21-4-19

Take a moment for self grooming on Thursday when you realize your toenails have cut through the ends of your socks. Driving aggressively is a bad, bad idea this week, particularly when you're driving your cousin Bobby Joe from the airport and his suitcase smells funny.

**Taurus:** Sparkly things will take your attention away from what is important.

4-20-5-20

Stripes will play a big role in your wardrobe on Monday, but only the gods know why. The feeling that someone is watching you comes on strong mid-week, so keep those curtains closed when you're watching *The Walking Dead* in your underwear. Lisa Parks Boyden, that means you.

**Gemini:** A very political friend will make a general ass of themselves in front of mixed company at a dinner party. It might be wise to travel with a roll of strong transparent tape in your clutch, so as to zip up their lips next time. Owls do not make for good stews, no matter what the strange little man on the corner selling mysterious meat in butcher's paper tells you.

5-21-6-20

**Cancer:** You have found a new role model in your life recently, and you're aspiring to meet their standard. Long leisurely walks through fields of little red potatoes are the stuff of your dreams.

6-21-7-22

**Leo:** Ligature marks found around your best friend's valet are proven not to be from your particular silk bathrobe sash ... elation! Loose donkeys roaming on Banyan Street are to be watched carefully. They enjoy the occasional sassafras root.

7-23-8-22

**Virgo:** There's a long list of people you want to meet

8-23-9-22

one day, and this week you won't meet any of them. An abrupt adventure involving the bald guy who sits in front of *The Temp* every morning and a banana will take place. Just roll with it.

**Libra:** Don't be the self-deprecating whiner at the water cooler this week. No one cares

9-23-10-22

whether *The Whisperers* cut down that tree or not. An excessive amount of lubrication will be needed in special situations this week.

**Scorpio:** Use a fingernail clipper to take that hangnail off or you'll be in pain the rest of the week. Change your diet, change your level of exercise, change your silky underwear at least every other day.

10-23-11-21

**Sagittarius:** Rocky Mountain High, Sag. It isn't just the name of a song. Your hair will be smoother and the voice will eventually return, have no fear. No turnips on Tuesday in any shape or form or you'll regret it.

11-22-12-21

**Capricorn:** The right stars are in alignment, and you'll be sharing your toothbrush with an albino garden gnome. Remember that small bison that visited you last winter? Yeah, he's back. And he brought Paul with him.

12-22-1-19

**Aquarius:** Beware the man with the glass eye.

1-20-2-18

**Pisces:** The longest you will go without a compliment about your outfit on Wednesday will be 13 minutes. This will puff you up to the pinnacle of fashion consciousness, but in doing so you will wear something so specatularly ugly on Friday you will never live it down. Large mouthfuls of banana pudding are discouraged ... take it slow.
