## La Manzana Mágica

¡Bienvenidos a la clase de español!

This month The Island School Spanish language program focused on learning the numbers one to thirty-one. We played some magical music as students entered

the room this October and filled fall with fun by performing “math magic” using the The Magic Apple ... “La Manzana Mágica.” This activity used addition to guess someone’s secret number with “La Manzana Mágica.”

It was an exciting and meaningful way to culminate learning to read, speak, and write numbers in Spanish. Learn Spanish and have fun!
