

SW FLORIDA FISHING

Sea trout is where the action is ...

BY CAPT. WILL WATERHOUSE

Speckled sea trout have been the deal in the back country this week. The unsettled weather patterns from last week has made the fishing a little tough this week but the trout have been biting

Scattered redfish have been caught on live bait on lower tides, but as the air temperatures and water temperatures rise from warmer weather look to see more redfish on the move.

Some snook have been caught around the mangroves on higher tides but the water temperatures have just been too cold to get them really active.

As the winds lay down look to target grouper and snapper offshore with live or dead bait around the nearshore reefs and wrecks.

Get out on the water and enjoy our great Boca Grande fishing and marine life!
