Tarpon starting to show up

■ BY CAPT. JOE LECLAIR

With warmer waters its time to shift gears and search for monster tarpon.

Recently we fished through heavy rain and wind in the muddy waters of the everglades and 10,000 islands. It could be my favorite place to fish. While we did not land any 200 pound tarpon we got into them and had many moments of excellence and despair. Watching the great tarpon launch into the air against the backdrop of the huge mangrove forest is a sight to behold.

Capt. Joe LeClair can be reached at (774) 263-2675 or at flyfishsalt.com
